EXPERIENCE

- **Developer at Studyntech** *Sept 2016 - Dec 2016*
Was responsible for developing the complete product at <http://asknlearn.in> and <http://studyntech.in/> using Django .
- **Software Trainee at Samsung R&D, Bengaluru** *June 2016-July 2016*
Worked on creating test cases for Tizen Platform. Wrote a python library for one-to-mapping of SART and TAF. Developed a Tizen App to compare two images taken either from camera or selected from the gallery . Wrote a Java program for Tizen Automation Framework for writing data to excel sheet.
- **Research Trainee at Oxford University Press** *Dec 2015-Jan2016*
Helped in writing of the book on Python. The main task was to proof read programs, suggestions for more interactivity and making a small project on each chapter.
- **Tech Leader at CampK12** *Dec 2014-Jan2015*
Developed games like flappy birds, sky shooter etc on java and made students learn the logic. Worked closely with MIT postgraduate and ex-Apple CEO (founders) on IDE project

PROJECTS

- **Python Tutorials at Unacademy**
Made video lesson on python. Having 10.7K followers.
- **Hackathon at Rashtrapati Bhawan** *Mar 2016*
It was built in hackathon organized at Rashtrapati Bhavan. We developed a complete examination system which automated nearly everything about examination process. The prime focus was face recognition to stop fake candidates.
- **Digital India Hackathon** *Oct 2015*
A common template system for govt. websites for the clean look and quick deployment. It was built at hackathon organized to encourage Digital India. We were highly appreciated. Stack used was MEAN.
